

Bank Management System

Introduction:

The "Bank Account Management System" project is a model Internet banking site. This site enables the customers to perform the basic banking transactions by sitting at their office or at homes through a PC or laptop. The system provides the customer with access to create an account, deposit or withdraw the cash from his account, and also to view reports of all accounts present. The customers can access the bank's website to view their account details and perform the transactions on account as per their requirements. Thus, today's banking is no longer confined to branches. E-banking facilitates banking transactions by customers around the clock globally.

Main Purpose:

The traditional way of maintaining the details of a user in a bank was to enter the details and record them. Every time the user needs to perform some transactions, he has to go to the bank and perform them. The necessary actions, which may not be so feasible all the time. It may be a hard-hitting task for the users and the bankers too. The project gives a real-life understanding of online banking. System and activities performed by various roles in the supply chain. Here, we provide automation for banking systems through the Internet. The Online Banking System project captures activities performed by different roles in real-life banking, which provides enhanced techniques for keeping the required information up-to-date, which results in efficiency. The project gives a real-life understanding of the online banking system and activities performed by various roles.

Benefits of Online Banking:

Many of us lead busy lives. Some of us are up before the crack of dawn, getting ourselves prepared so we can, in turn, get our families ready for the day. We rush to work, rush to get the kids to school, and at the end of the day, we rush home only to brace ourselves for the next day. After a hectic day, the last thing you want to do is spend time waiting in line at the bank, or even the post office. That's where online banking comes in. Many of the benefits of doing our

Banking online is obvious.

1. You don't have to wait in line.
 2. You don't have to plan your day around the bank's hours.
 3. You can look at your balance whenever you want, not just when you get a statement.
- There are some hidden benefits, too. As a young bank customer, you're just learning how to manage your money and observe your spending patterns.

Online banking allows you to watch your money on a daily basis if you want to. By keeping By keeping close tabs on your funds, you'll always be aware of what's happening in your bank account. For experienced spenders, this option is far more appealing than the sudden discovery that you're broke!

It's also helpful to watch how much interest you're gathering on investments and savings, or what service charges you have incurred.
